

Sub B3 >

A3

1. (Amended) A golf laser aid device comprising:

a housing having a laser; and

a means for affixing the housing to a location on a golfer's body,

wherein the laser emits a laser beam that points in a line directly toward an external reference for providing the golfer with a swing alignment reference separate from the golfer's body.

Sub B4 >

A4

6. (Amended) The device of Claim 5, wherein the fastening means comprises an adjustable velcro strap.

Sub B5 >

A5

8. (Amended) The device of Claim 1, wherein the location on the golfer's body is an article of clothing worn by the golfer.

Sub B6 >

A6

11. (Amended) The device of Claim 1, wherein the external reference is a target.

12. (Amended) The device of Claim 1, wherein the external reference is a point of reference directly on the ground in between the golfer's feet.

13. (Amended) A golfer's aid, comprising:

a means for providing an active comparison with an external reference, the external reference being separated from a golfer's body; and

an affixing means for affixing the means for providing an active comparison with an external reference to the golfer's body;

46 wherein the active comparison provides the golfer with an indication regarding how his swing is aligned before, during or after a golf swing.

---

A7 Sub. B7> 16. (Amended) The aid of Claim 13, where the indication is a visual reference.

17. (Amended) The aid of Claim 13, where the indication is a sound signal indicating proper stance.
